Softphone:

FREE from FTS. you can extend the mobility of your FTS PBX system to your desktop computer at home, or even your laptop while on the road. **Note:** For quality reasons we do **not** recommend that a softphone ever replace a hardphone for an employee. Consider it a 2nd "on the road" phone.

Pros: Work on your laptop. Make and receive calls anywhere there is a broadband connection.

Cons: Voice quality is not as good as a hard phone.

GXP 1405: Basic Phone

GXP1405 is a next generation small-to-medium business IP phone that features 2 lines. It is a perfect choice for small-to-medium businesses looking for a high quality, feature rich IP phone at an affordable cost. . The GXP 1405 is great for businesses that makes few calls.

Pros: Easy to use. Great price. Good for SOHO offices. Perfect as a Lobby Phone.

Cons:Very Basic IP Phone. Average Speakerphone.

GXP2100: HD Quality

HD wideband audio, superb full-duplex hands-free speakerphone with advanced features like acoustic echo cancellation and excellent double-talk performance. One 10/100 Ethernet port allows you to share one connection for both your phone and computer.

Pros: Multi-line. Easy to use. Good for call center. PoE.

Cons: Average Speakerphone.

GXP-2110: HD Sound

The GXP-2110 is suited for managers and executives who want more features than the average phone. With 4 lines and 18 programmable keys you have plenty of room for multiple speed dial settings. HD audio quality for crystal clear voice communication, integrated Web applications, XML provisioning and leading edge telephony features. Dual ethernet port.

Pros: Good value. Large LCD. Expandable for operator. Good speakerphone. Nice executive phone. PoE

Cons: Short Handset Cord
